This small tile building in Herman Dierks Park holds many memories for country singer Collin Raye.

When Collin was born at De Queen General Hospital in August 22, 1960, his grandparents lived in the home and he spent a lot of time there the first three years of his life.

Using grant monies obtained from SWEPCO and funds, the Collin Raye Benefit Concert Committee took control of the house with the idea of establishing the Collin Raye Birthplace Museum.

Collin, his family and fans have donated or loaned items for display.
